

"POP-UP" Devices

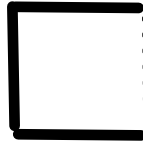

1. Door

Draw an "L" cut on solid lines, fold on dotted line.

2. Window

Draw three sides of a square, cut on three solid lines, fold on the dotted line.

3. A Spring

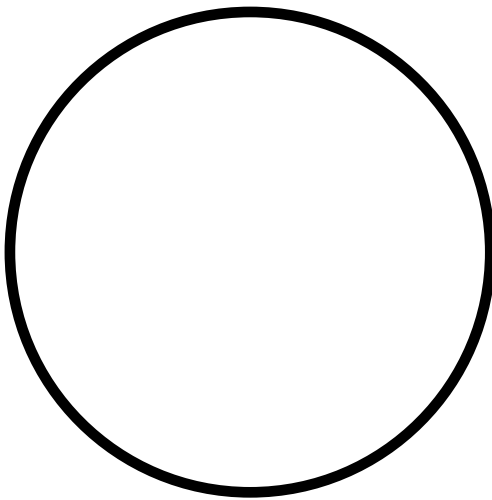

Cut twin strips of paper.

Glue them together to make a corner.

Take turns folding on top of each other.

Glue the ends shut.

Glue to book under an object you want to spring up.

4. The Spiral

Trace a circle.

Cut it out.

Put a dot in the middle.

Draw a line that spirals from the outside in.

Glue one end of the spiral to one page, the other end of the spiral to the opposite page.

5. Top Fold

On the folded edge, crease back both layers of the top left corner.

Open the page.

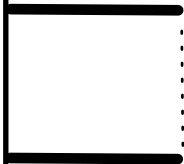

On the inside, Tuck folded triangles down .

Glue object to this section.

It will "pop up" when you open the page.

6. Center Tab

On the folded edge, cut and fold as shown.

Open the book, refold so the cut section is tucked in.

Glue object to cut section so it "pops up" when page is opened.

7. The Mouth

With pages folded, cut a straight horizontal line in the center.

Fold the top and bottom triangles out.

Open pages, tuck triangles in to center.

Draw a character around the mouth.
